

Heavy Chevy

[Music and lyrics: Tero Arteli]

Fire this engine and feel it on the road,
would You believe it's true.
four-fi ftyfour is splittin' black smoke,
and rampage horses shine thru.

It sounds like concrete mill
and You will feel it on the ground.
You can hear the power when You step on it
just shift a gear, it's clean and sound.

How heavy is Your Chevy,
roaring bigblock devil,
Cause nothing beat cubic inches,
How heavy is Your Chevy,
You can't beat it any way
If You think so, You're out of Your mind

It's king of pickups, believe it,
and You will learn it easy or hard way.
Rock'n'Roll on the road,
go ahead and make my day.

How heavy is Your Chevy,
roaring bigblock devil,
'Cause nothing beat cubic inches,
How heavy is Your Chevy,
You can't beat it any way
If You think so, You're out of Your mind
