

John's Engine Shop

[Music and lyrics: Tero Arteli]

(to Juha Tanila)

John's got a dream,
a dream about his own engine shop.
John's got a dream,
a dream about his own engine shop.
He wants to fix all the engines, motors, machines
and all the little things.

John bought a lathe,
started to make the little things.
John bought a big drill,
started to make'em little holes.
He wants to fix all the engines, motors, machines
and all the little things.

John bought a welder,
started to weld together things.
John bought a grinder,
started to grind lot of things,
He wants to fix all the engines, motors, machines
and all the little things.

Now John's happy man,
he's got all that he needs.
Now John's happy man,
'cause the engine shop is now ready and his own
He wants to fix all the engines, motors, machines
and all the little things.
